DETAILED ACTION

1. Applicant's election of Species II (Figure 4) readable on claims 15-16, 18-19, 21, 22, 24, 37, 39 in the reply filed on 09/01/2006 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

2. This application is in condition for allowance except for the presence of claims 33-36 directed to Species non-elected without traverse. Accordingly, claims 33-36 have been cancelled.

EXAMINER'S AMENDMENT

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 33-36 have been cancelled.

REASONS FOR ALLOWANCE

4. Claims 15, 16, 18, 19, 21-24, 37-39 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claim 15, the prior art of the record fails to show or fairly suggest a computer system comprising a video interface to store a property of one or more frames representing a video camera's view at different times and to compare the property of two frames from the video camera to each other while the computer system is in the sleep mode and to cause the computer system to exit the sleep mode in response to the comparison.

Claims 16, 18, 19, 21 are allowable for the reason given in claim 15.

Claim 22 is a method claim of apparatus claim 15. Therefore claim 22 is allowable for the reason given in claim 15.

Claims 23-24 are allowable for the reason given in claim 22.

Regarding claim 37, the prior art of the record fails to show or fairly suggest a method comprising determining whether there is motion proximate to the computer while the computer is in the sleep mode by determining whether the first frame differs from the second frame by a predetermined amount; and causing the computer to exit the sleep mode in response to motion detected proximate to the computer.

Claims 38-39 are allowable for the reason given in claim 37.
